

# Molecular Biosciences Scientific Retreat 2011

Tuesday, May 17<sup>th</sup>, 2011  
Prentice Center, 3<sup>rd</sup> Floor L South  
250 E. Superior Street

- 9:25 – 09:30      **Retreat Welcome** by *Kelly Mayo*
- 9:30 – 10:05      **Presentation Session 1**  
**Brickner Lab** Ivelisse Cajigas  
*"Multiple Independent Inputs Modulate Epigenetic GAL Gene  
Transcriptional Memory"*
- 10:05 – 10:40      **Weiss Lab** Brian Yeh  
*"Docking Interactions Link The NDR/LATS Family Protein Kinase Cbkl To  
Multiple Substrates"*
- 10:45 – 11:45      **Keynote Speaker:** Dr. Rebecca Dutch  
The University of Kentucky  
*"Emerging Paramyxoviruses: New Insights Into Viral And Cellular Biology"*
- 11:45 – 1:00      **Lunch and State of the Department Address**
- 12:45 – 1:20      **Presentation Session 2**  
**Beitel Lab** Kevin Nelson  
*"Drosophila Src42 And dDaam Direct Anisotropic Apical Membrane  
Growth To Regulate Epithelial Tube Dimensions"*
- 1:20 – 1:55      **Carthew Lab** Pei-Hsuan Wu  
*"Regulation Of The miRNA Machinery By External Signals"*
- 1:55 – 2:30      **Morimoto Lab** Carmen Krammer  
*"Modeling Infectious Proteins In C. elegans"*
- 2:30 – 2:45      **Break (Poster Set-Up)**
- 2:45 – 3:20      **Presentation Session 3**  
**Rosenzweig Lab** Amie Boal  
*"The Structural Basis For Methyl Transfer By A Radical SAM Enzyme"*
- 3:20 – 3:55      **Unger Lab** Carsten Mim  
*"BAR Proteins And Mechanisms Of Membrane Bending"*
- 4:00– 6:30      **Poster Session and Reception**
